Shizhao Ye

ShanghaiTech University, 1 Zhongke Road, Pudong New Area, Shanghai, China
+86 15800626570 | yeshzh2023@shanghaitech.edu.cn | yeshizhao@berkeley.edu

Education

ShanghaiTech University Sep 2023 – Jun 2027 (expected)
B.Eng. in Computer Science and Technology | GPA: 3.72/4.00; Major GPA: 3.83/4.00

University of California, Berkeley Jan – May 2026
Exchange Student, GLOBE Visiting Student Program
Selected coursework: Operating Systems; Computer Networks; Deep Reinforcement Learning.

Research Interests

Embodied AI and robot learning, particularly integrating multimodal perception with control.

Publications & Preprints

HuGo: LLMs as Whole-Body Policy Code Designers for Humanoid Loco-Manipulation
Seoyeon Choi, **Shizhao Ye**, Nicholas Bui, Aayushi Shrivastava, Kanghyun Ryu, Dhruva Tirumala, Markus Wulfmeier, Negar Mehr.
arXiv preprint, 2026. arXiv:2609.30594 | Project Page

M3GD: Multi-Modal Multi-View Geometric Diffusion for Camera–LiDAR Novel View Synthesis
Yang Zhou, Jiuhong Xiao, **Shizhao Ye**, Long Quang, Carlos Nieto-Granda, Giuseppe Loianno.
arXiv preprint, 2026. arXiv:2609.30056

Research Experience

Agile Robotics and Perception Lab (ARPL), UC Berkeley May – Sep 2026
PI: Prof. Giuseppe Loianno | Research Intern

- Reproduced NVS baselines, prepared RGB/depth visualizations, and analyzed RGB–LiDAR alignment and failure cases to support M3GD's evaluation.
- Explored LoRA adaptation to address real-world distribution shift in NVS.
- Identified M3GD's limitations under degraded observations; independently investigated methods for robust NVS.

Intelligent Control (ICON) Lab, UC Berkeley May – Sep 2026
PI: Prof. Negar Mehr | Research Intern

- Trained high-level PPO baselines in Isaac Sim for HuGo; designed and debugged rewards for Push Button, Push Box, and Lift Box tasks.
- Designed hardware experiments, debugged the Vicon motion-capture system, and recorded robot trials for real-world policy evaluation.

AS3R Lab, ShanghaiTech University Oct 2024 – Present
Advisor: Prof. Yuqi Chen | Undergraduate Research Intern

- Reviewed foundation models for robotics and physical safety; organized threats, defenses, and evaluation benchmarks for an embodied AI safety survey.

Service

Reviewer, IEEE International Conference on Robotics and Automation (ICRA 2027).

Teaching Assistant, ShanghaiTech University Sep 2025 – Jan 2026
SI100B: Introduction to Information Science and Technology
Designed programming assignments, held office hours, and led recitation sessions.

Honors & Awards

Inaugural AI Honors Program, ShanghaiTech University 2024 – Present
Selected for outstanding academic performance and research potential.

Outstanding Student, ShanghaiTech University (Top 3%–7%) 2024 – 2025

Outstanding Student, ShanghaiTech University (Top 7%–15%) 2023 – 2024

Skills

Programming: Python, C/C++, PyTorch. **Robotics:** NVIDIA Isaac Sim, Vicon motion capture.
Development: Linux, Git, GDB. **English:** TOEFL 109/120.
